Under Internshala

Projects

PG Life Website

- This platform will connect landlords or PG providers with potential tenants, offering a user-friendly and efficient experience.
- Allow users to create accounts with secure authentication. Provide options for user profiles, including tenants and PG providers (landlords)
- Display comprehensive information for each PG listing, including photos, descriptions, and contact details.

Amazon Clone

- To create a static web page that closely resembles the visual design of the Amazon website's homepage, including the header, navigation, product listings, and footer
- Include user account options (sign-in, sign-up) even if they are not functional.
- Apply CSS styles to replicate the color scheme, fonts, and overall visual design of the Amazon website

Hotel Management System

- It is web application developed to attain a prototype for hotel management system
- It cover major aspects of hotel management like booking and record keeping
